Other		

5. Please select the responses that most closely correspond with your views. The following have been identified as **strengths** in Sonoma County:

Strongly agree	Agree	Disagree	Strongly disagree	N/A
----------------	-------	----------	-------------------	-----

The health department is addressing the most important health issues for Sonoma County families.

The community is included in efforts to improve local services.

There are many ways that families can learn about and be linked with resources.

It is easy for families to find a clinic or doctor for prenatal care and well-child care.

It is easy to access Medi-Cal and other economic assistance programs if needed.

Other strengths (please specify)

6. Please select the responses that most closely correspond with your views. The following have been identified as **weaknesses** in Sonoma County

Strongly agree	Agree	Disagree	Strongly disagree	N/A
----------------	-------	----------	-------------------	-----

Few private doctors are accepting new patients.

It is difficult to get an appointment with my own health care provider.

It is difficult to see a dentist.

It is difficult to find counseling for mental health issues for myself and/or my family.

Students receive little health education in middle and high school.

Other weaknesses (please specify)

7. Please list any specific programs or resources that have been helpful to you and your family.
