

Sonoma County Department of Health Services
Maternal, Child & Adolescent Health Program

Problem:

Young children in Sonoma County have high rates of Iron Deficiency Anemia (IDA)

The MCAH Program is convening a group of local stakeholders to:

- Identify factors contributing to Iron Deficiency Anemia in young children in Sonoma County
- Prioritize interventions to impact this problem

Please join us:

Tuesday, May 4th
1:30-3:30 p.m.
North City View Room
625 5th Street, Santa Rosa

Agenda:

1. Presentation of local data
2. Review of literature- individual, family and societal factors associated with IDA
3. Identify the strongest contributors to the problem in Sonoma County
4. Determine interrelationships among factors and key causal pathways
5. Consider interventions to reduce IDA that can be implemented over the next five years in Sonoma County
