

FHOP Publications - Health Indicators

Health Indicators for California's Children and Youth [1]

FHOP staff, under contract from the Foundation Consortium, developed a report entitled "Health Indicators for California's Children and Youth."

Selecting Health Indicators for Public Health Surveillance in a Changing Health Care Environment [2]

A 24-page PDF document developed as a reference for public health agencies to utilize in assessing the impact of programs and services and systems and policy changes on the health and well being of women, infants, children and youth.
