

## Getting the most out of your local Databooks

Presentation by FHOP

Objectives:

Participants will understand:

- What data products are available from FHOP for the needs assessment
- Topics and indicators in the DataBooks
- Why some DataBooks are labeled PROVISIONAL
- Where to find specific information in the DataBooks(e.g., numerators, denominators, year rates, 3-year rates)
- How to determine if rates are significantly different and if they have changed significantly over time
- How to determine whether a trend is significant, linear or curvilinear, and if it differs from the state
